

Fund Your Interactive Brokers Account with Crypto

— Up to €50K Monthly

💡 Why This Matters

Imagine you have €50,000 and want to invest it in something solid — like stocks of Apple, ETFs from BlackRock, or index funds like the S&P 500.

But here's the catch: standard funding methods can be slow, expensive, or unsuitable for large amounts. Meanwhile, markets move fast — and delays cost money.

So how do you invest quickly, easily, and cost-effectively?

📌 This guide shows how to fund your Interactive Brokers account with \$50,000 using cryptocurrency through Trustee Plus — a modern crypto wallet with a built-in euro IBAN.

🔧 *Step 1: Get Everything Ready*

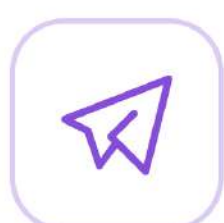

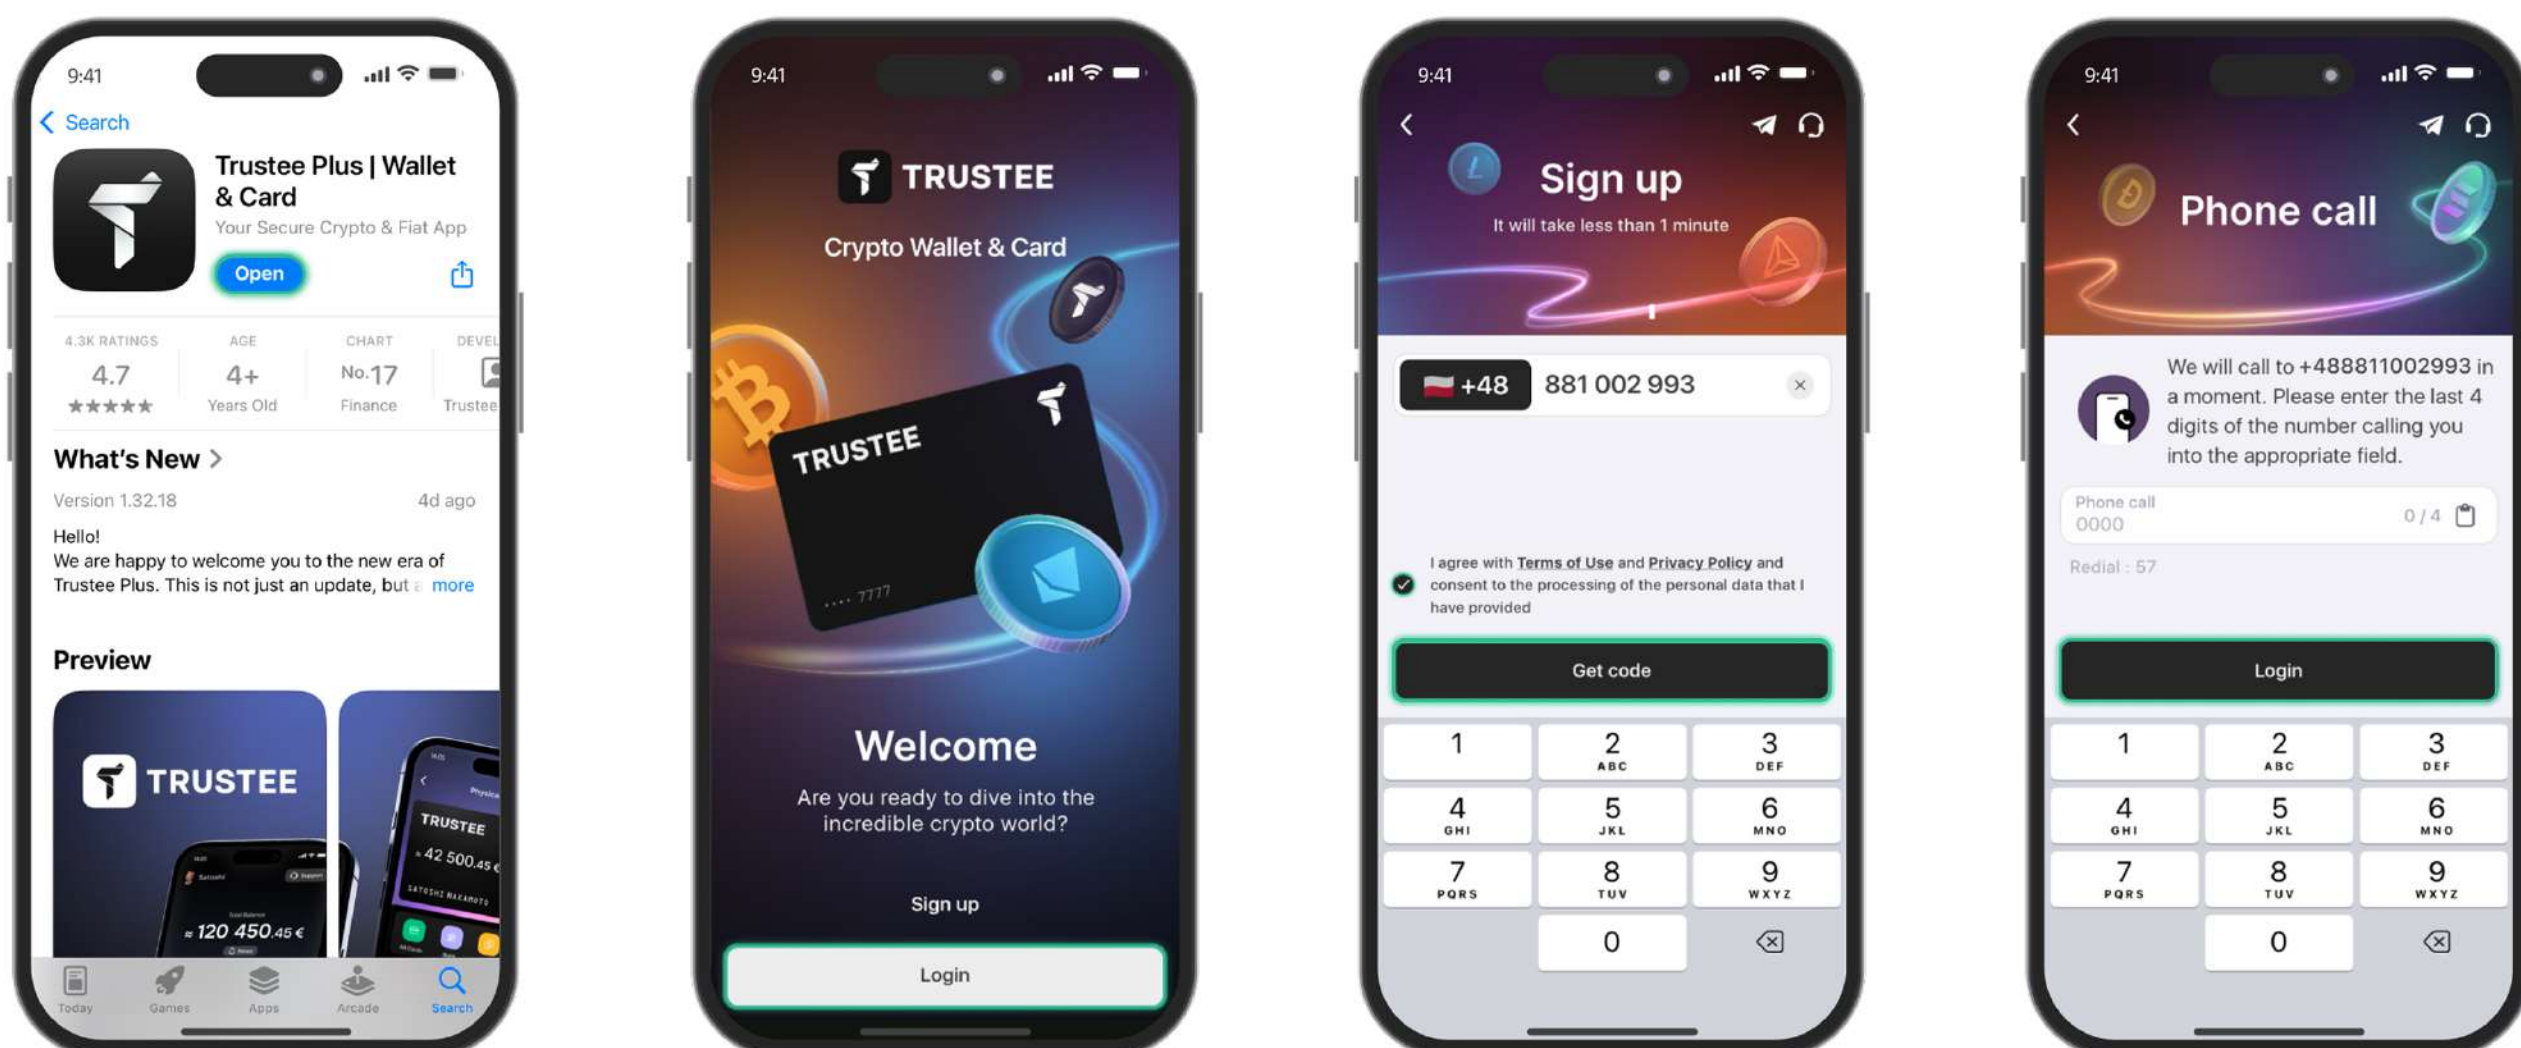

To make it work, you'll need 3 things:

- 1. Trustee Plus** — a crypto wallet with IBAN and card features, fully compliant with EU regulations.
- 2. Your personal euro IBAN** — opened in seconds right in the app.
- 3. An Interactive Brokers account** — your gateway to global markets.

➡️ *Trustee Plus registration*

The account creation process in Trustee Plus is extremely simple and takes less than a minute.

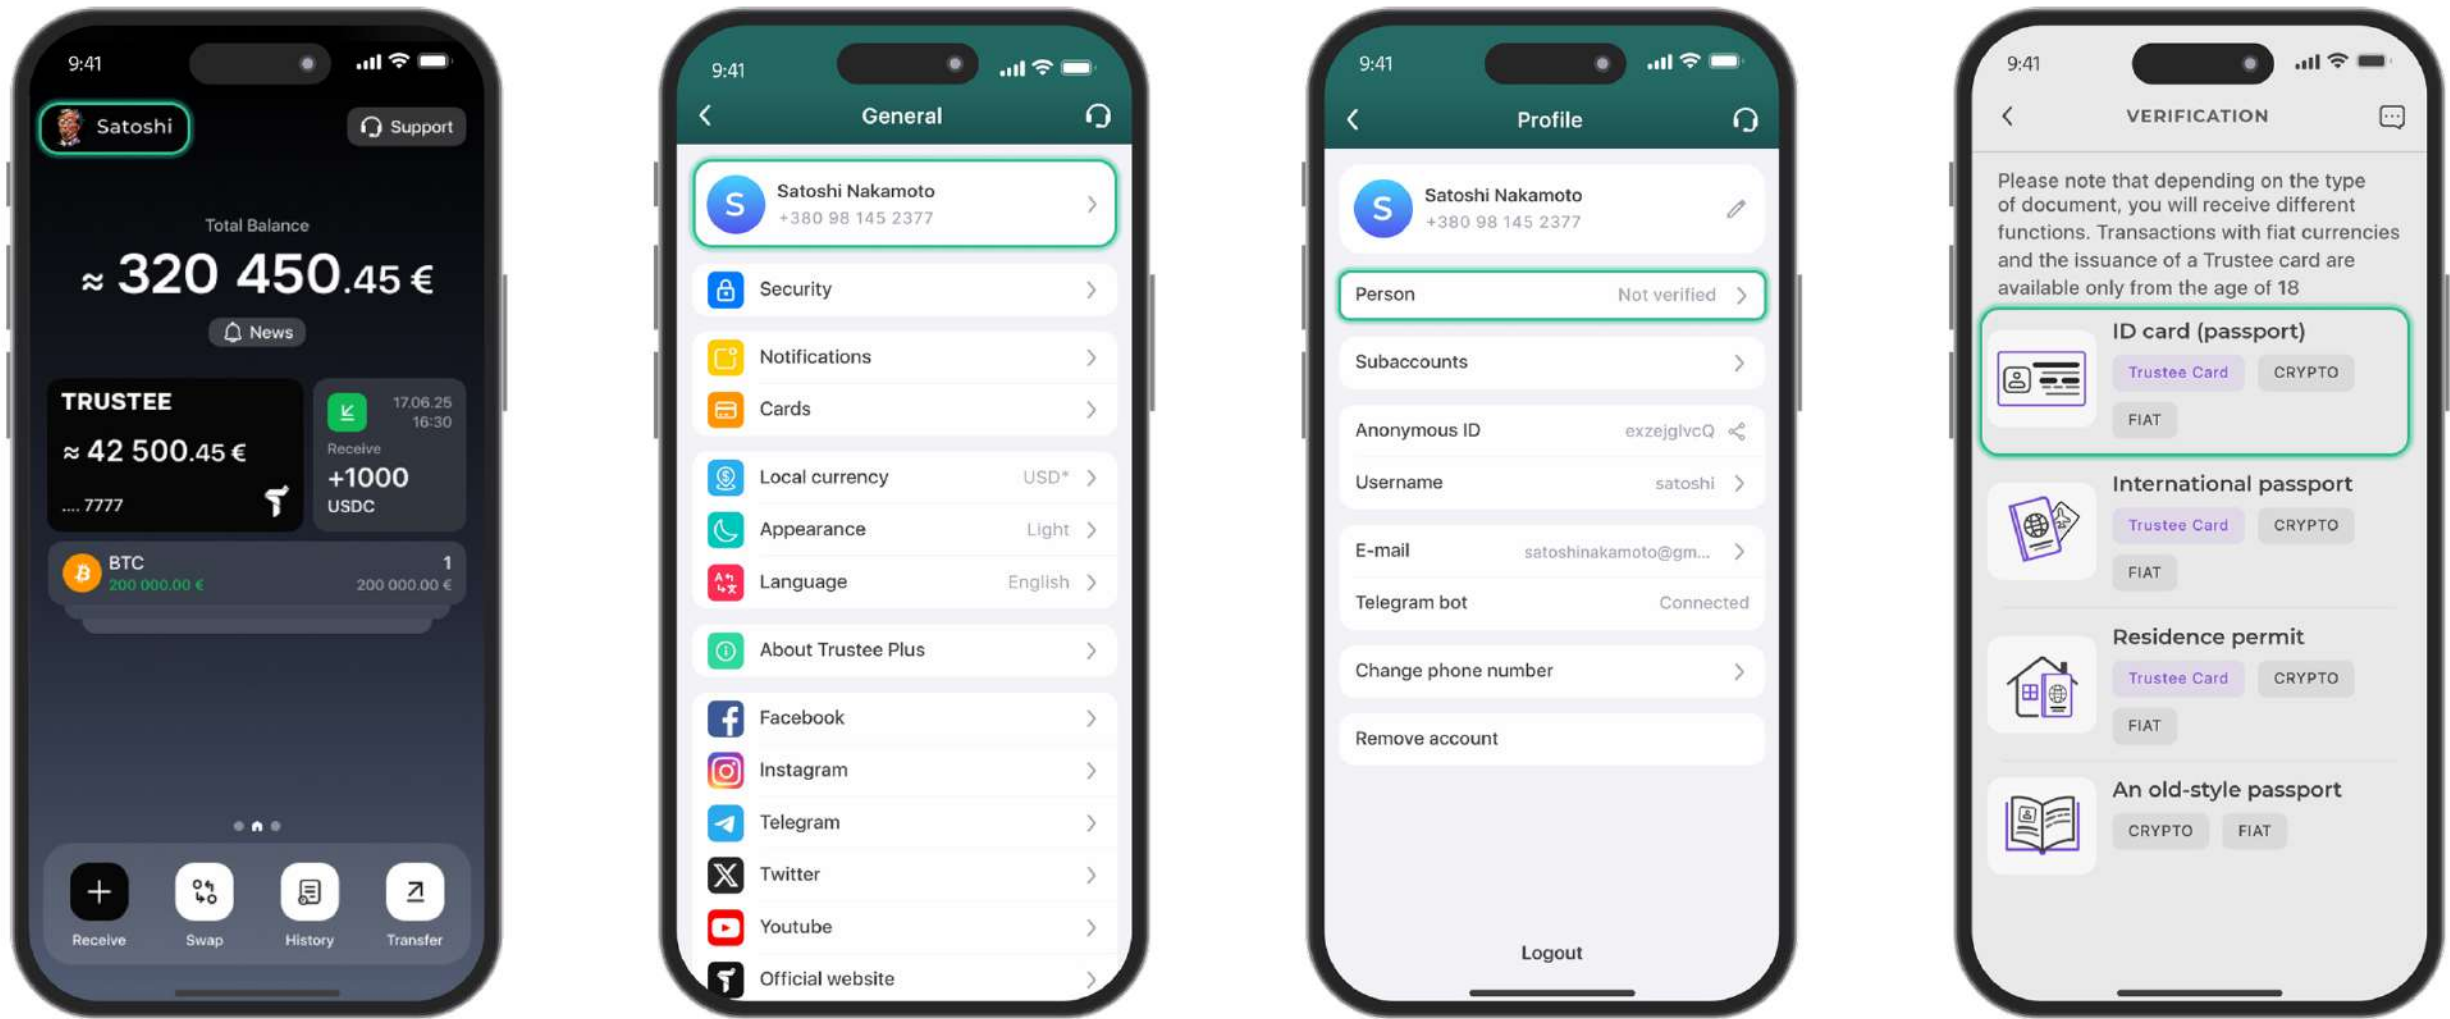

- Just install the app and tap the **“Sign Up”** button.
- Enter your phone number to receive a one-time verification code. You can choose to get it via SMS or Telegram.

Install Trustee Plus

 Step-by-step guide to verifying your identity with an official ID document

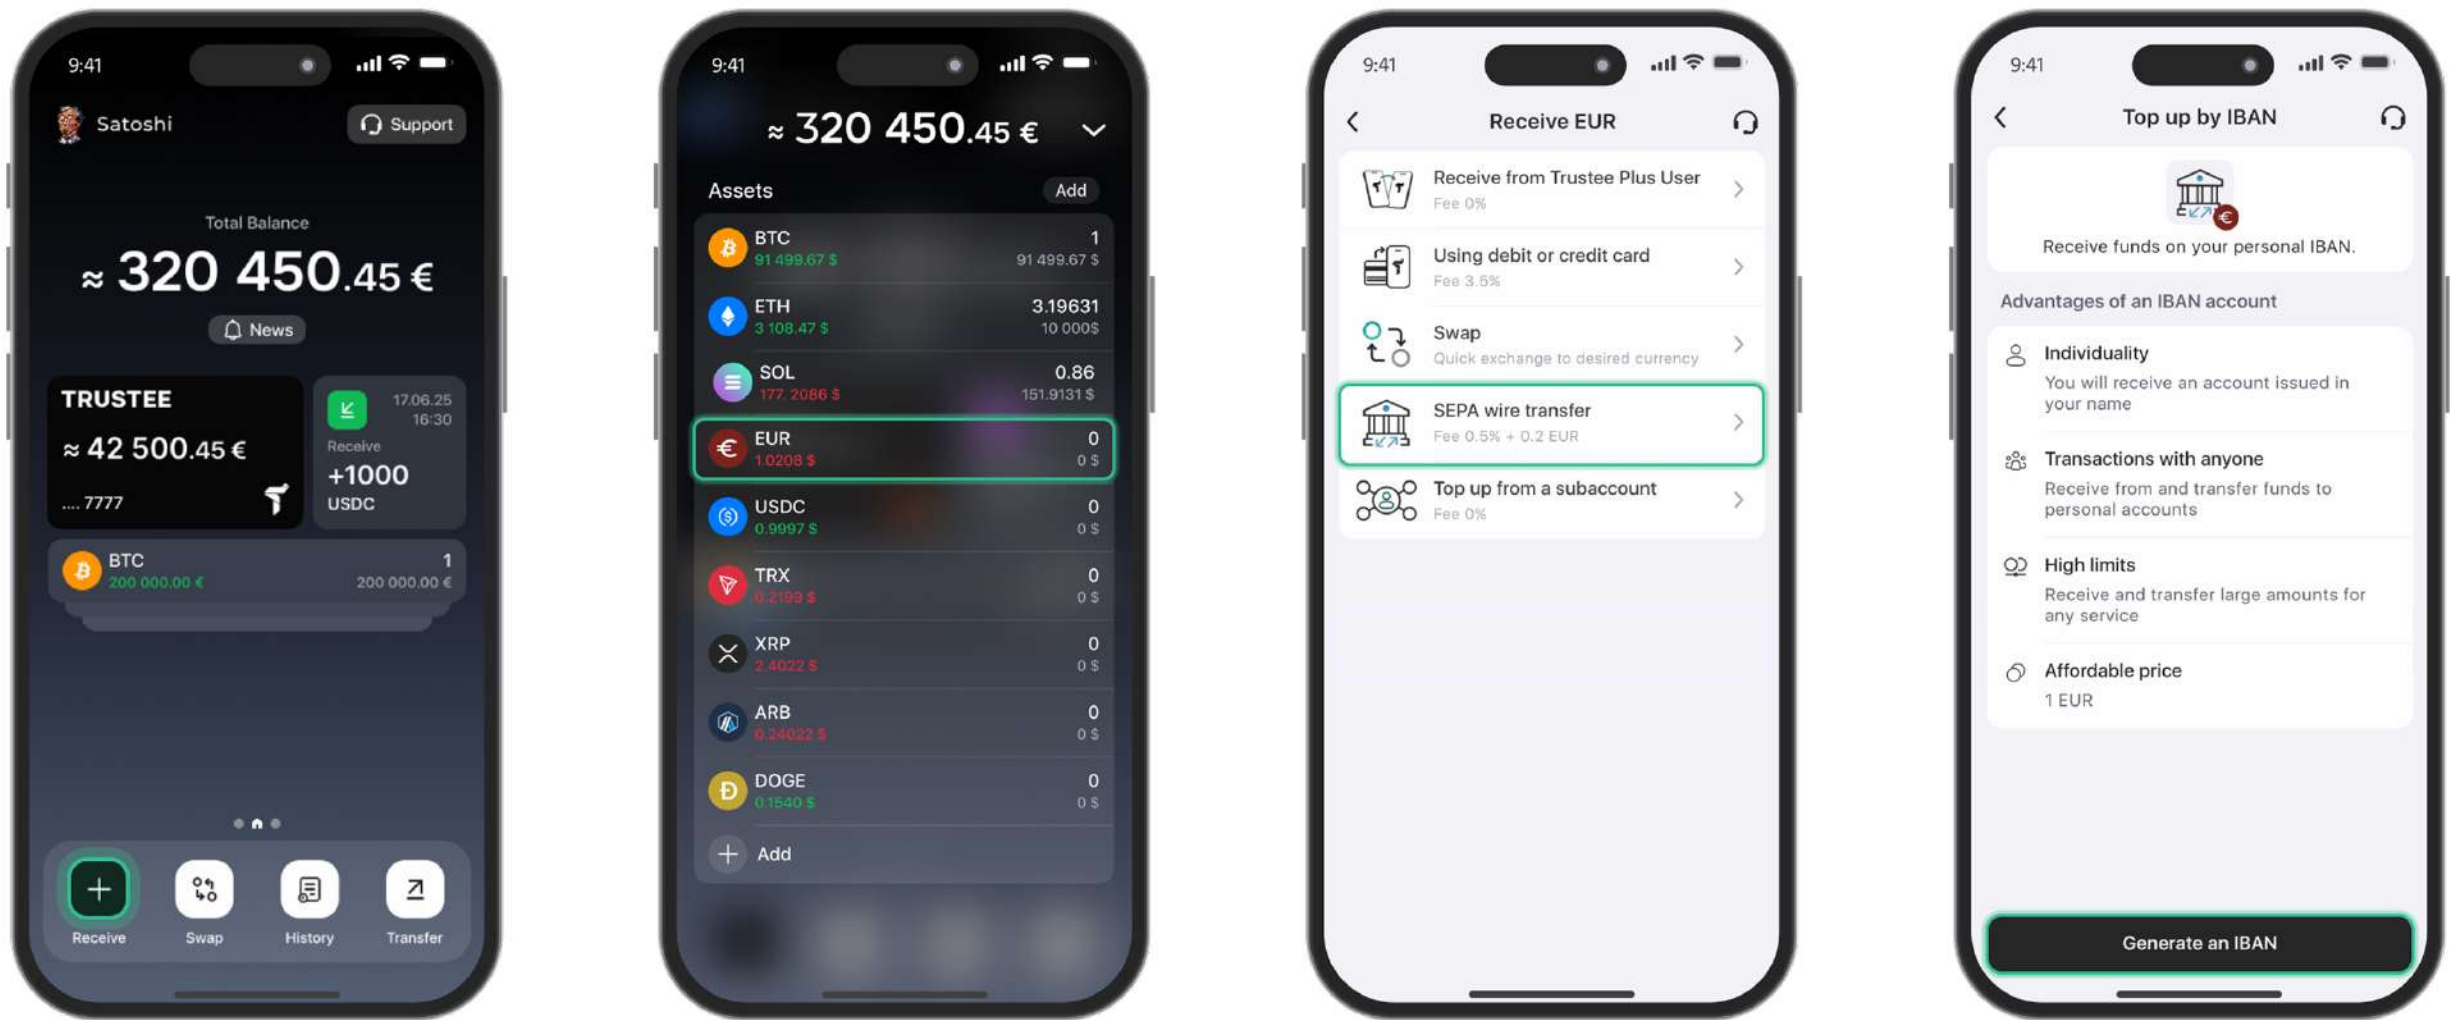

- Tap the profile icon → select “Person”
- Choose an internationally recognized document: ID card, passport, or permanent residence permit.
- Enter your personal information: last name, full first name, date of birth, and gender.
- Next, provide your European residential address.
- Upload a photo of the chosen document using the designated form.
- Take several selfies following the system’s prompts — this is part of the verification process.
- State your income source and purpose of using the app

How to open a personal IBAN account

You can open a personal IBAN directly within Trustee Plus — this gives you access to an IBAN that can be used for everyday payments as well as integrated with your Trustee Plus crypto wallet.

- Open the Trustee Plus app and tap the “**Receive**” button on the main screen.
- Select **Euro (EUR)** from the currency list.
- Next, choose the option “**by IBAN details (SEPA)**”.
- Create your personal IBAN account — this takes just a few seconds.
- Done! You now have a fully functional euro IBAN that you can use for easy transfers and payments.

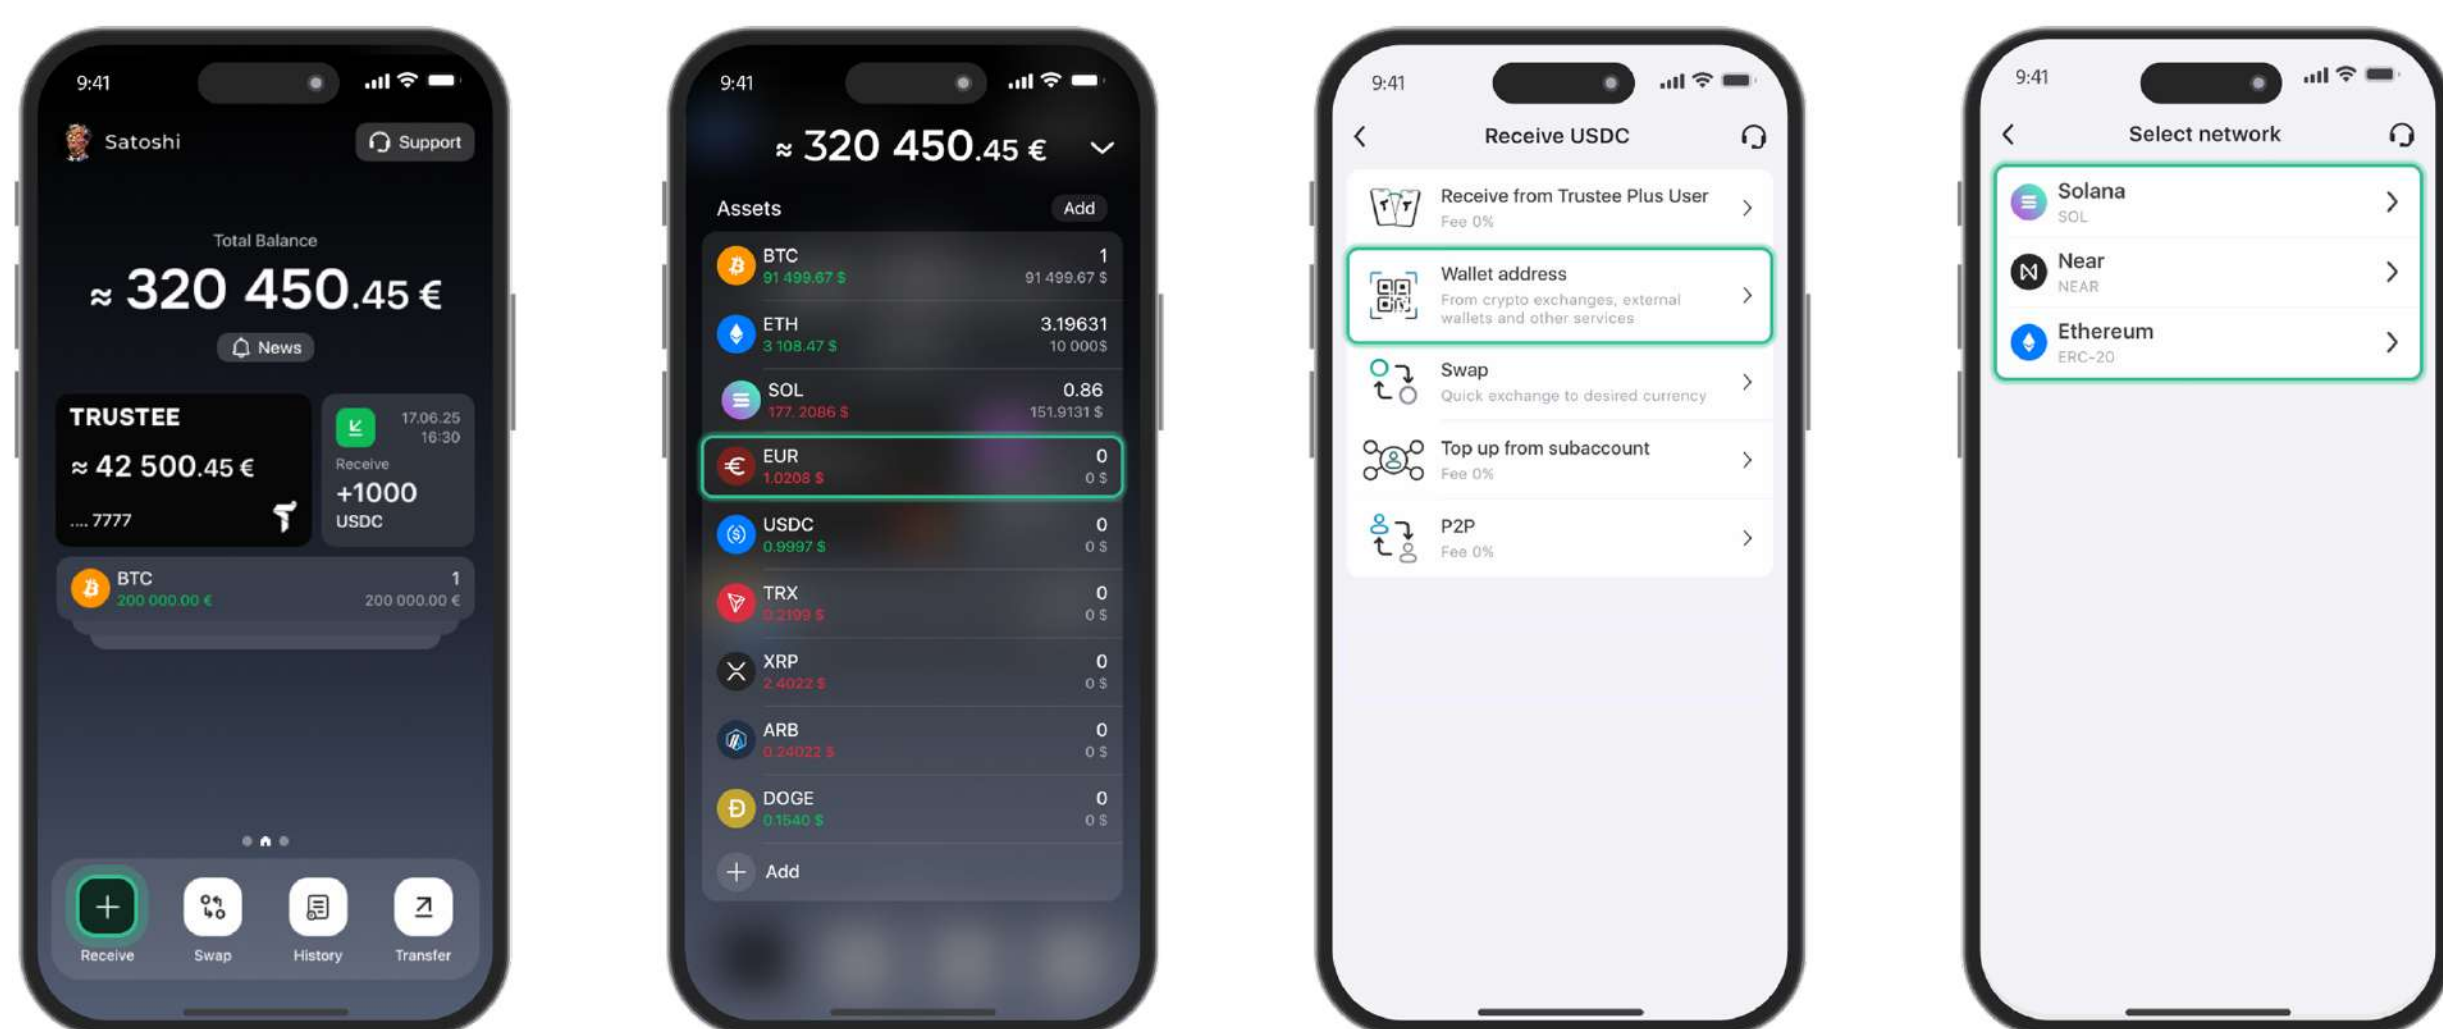

💰 Step 2: Fund Your Trustee Plus Balance with Crypto

The most convenient way to fund your Trustee Plus account is through cryptocurrency. It's fast, simple, and has no limits.

Here's what you need to do:

1. Open the app and go to the **“Receive”** section.
2. Select the **“By wallet address”** option and copy the address of the asset you want to deposit (for example, BTC or USDC).
3. Send cryptocurrency from any wallet to this address.
4. After the funds are credited, be sure to go to the **“Exchange”** section and convert your cryptocurrency to EUR — euros are used to fund your Interactive Brokers account.

🏠 Open an Interactive Brokers Account

To open an account, go to the official Interactive Brokers website and complete the application. You will need the following:

- Personal and contact information — verification requires submitting photos or scanned copies of documents.
- Information about your income and tax residency.
- Details about your trading experience, investment goals, and bank account information for funding your account.
- Specify which markets you plan to trade on and choose whether you want to participate in the stock lending program to other clients.

After submitting the application, wait for the verification results.

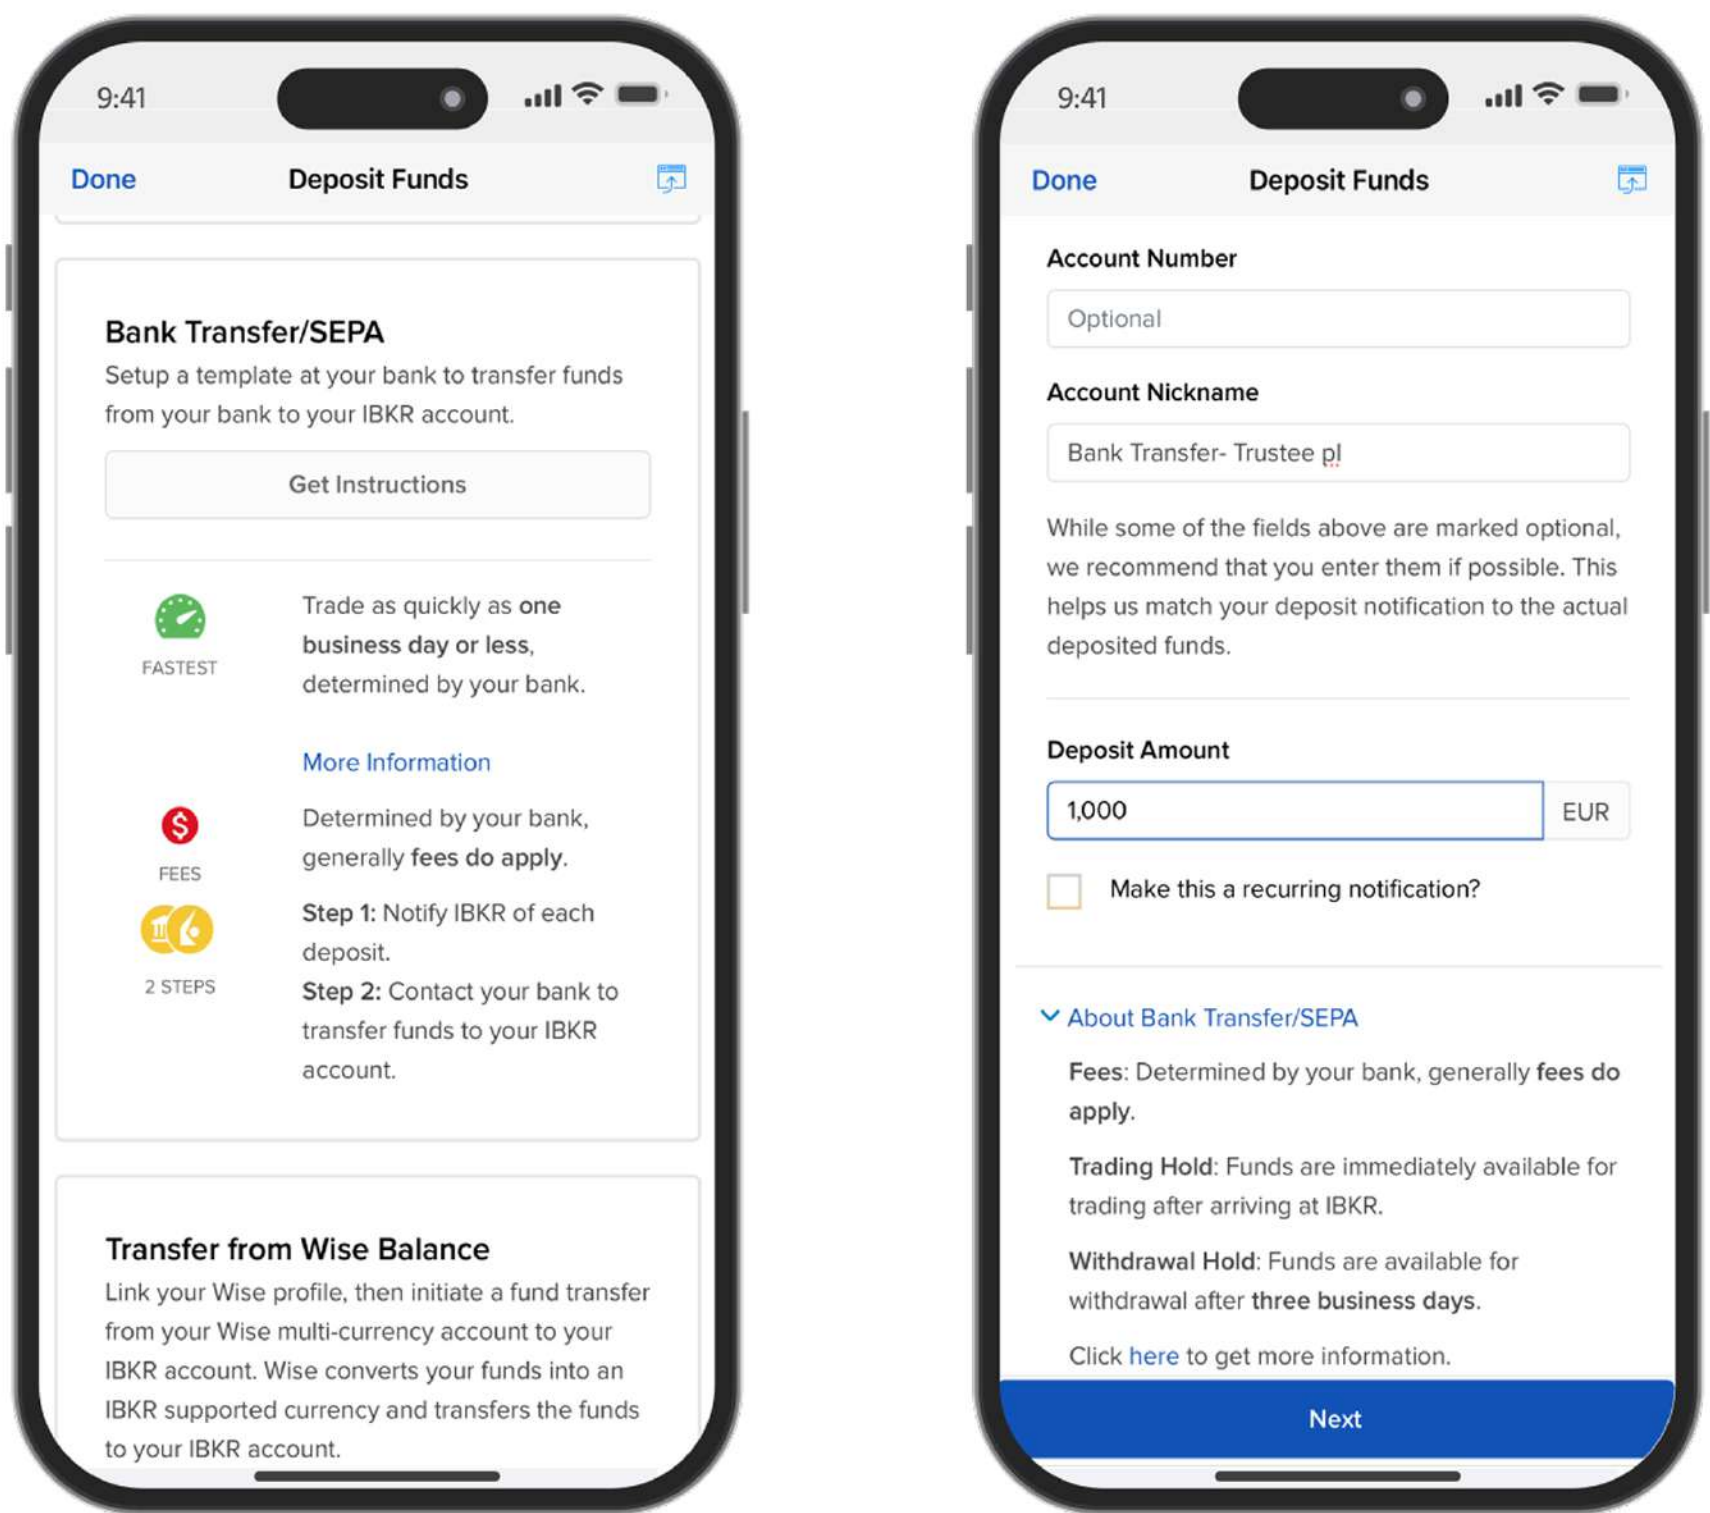

Install Trustee Plus

💰 Step 3: Transfer Funds to Interactive Brokers via IBAN

Now, let’s get to the main part — transferring funds to your brokerage account.

In the Interactive Brokers app:

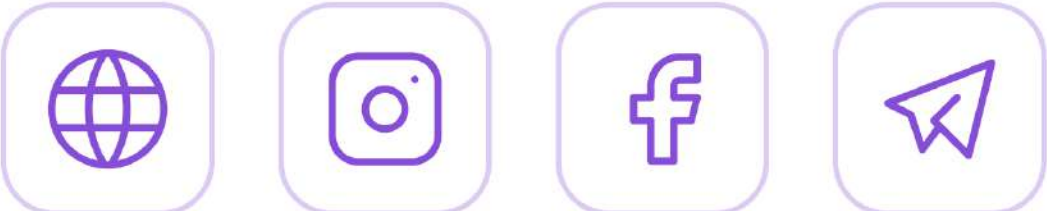

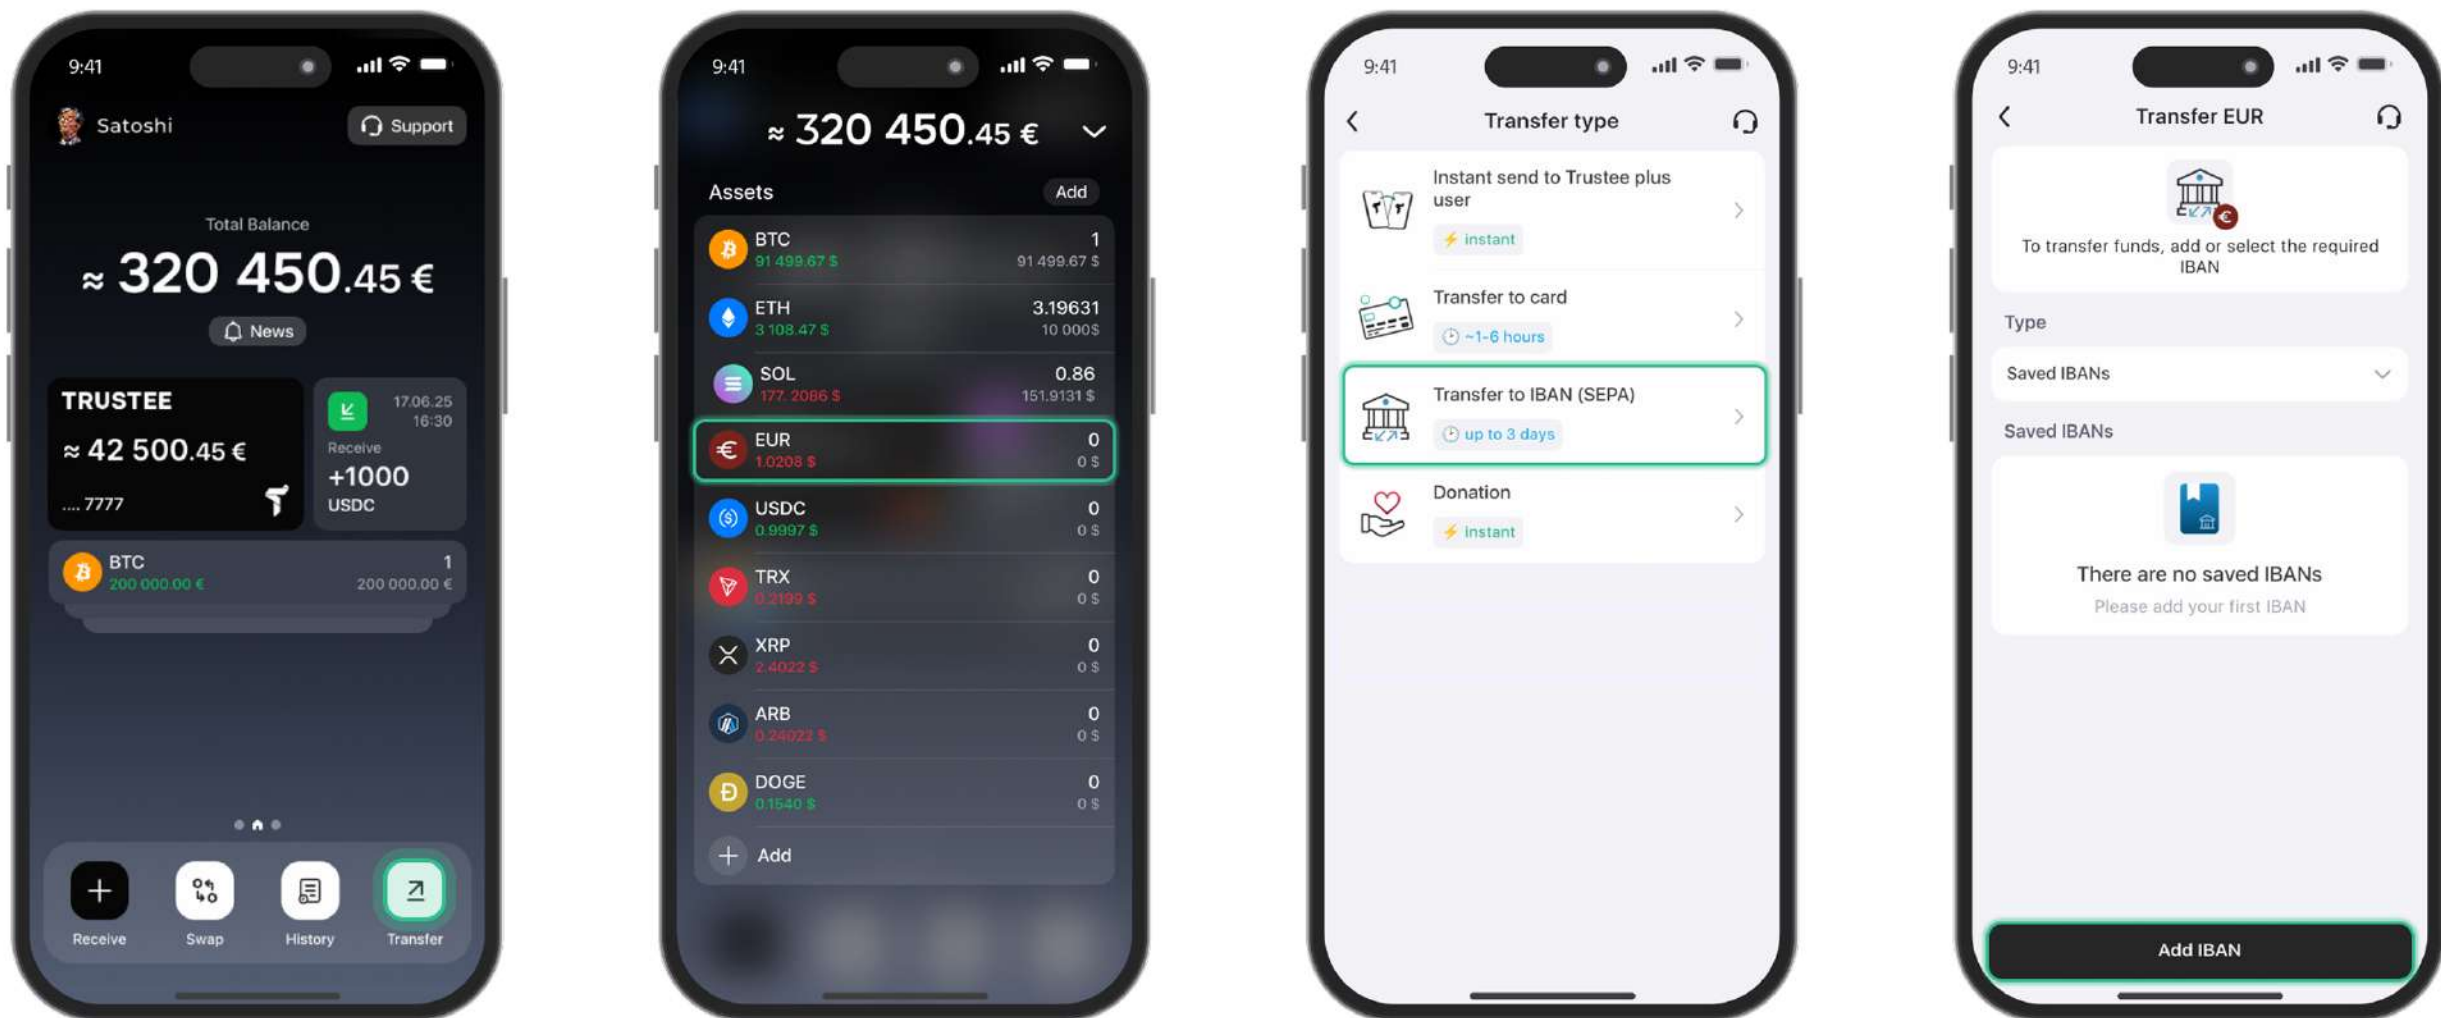

- 1. On the main page, select **“Deposit Funds.”**
- 2. Next, click **“Regular Deposit”** → **“Use a new deposit method.”**
- 3. Choose the currency **EUR**.
- 4. Select the transfer type as **Bank Transfer / SEPA**.
- 5. Click **“View Instructions”**, and for convenience, enter **Trustee Plus** in the **“Sending Institution”** field.
- 6. Below, enter the deposit amount and copy the payment details.

In the Trustee Plus app:

- 1. Go to the **“Send”** section in the Trustee Plus app.
- 2. Select **EUR** as the currency for the transfer.
- 3. Choose Transfer via **IBAN (SEPA)**.
- 4. Enter the amount you specified earlier when creating the request in Interactive Brokers.
- 5. Copy the payment details provided by Interactive Brokers and paste them into the corresponding fields in Trustee Plus.
- 6. Confirm the transfer — and you’re all set.

💰 **Fee:** just 0.1% + €2

Install Trustee Plus

This is one of the most convenient ways to fund your investments — directly from a crypto wallet to a global broker.

✅ Interactive Brokers funded! 💰📈

You can now:

- 🚀 Check your IBKR balance
- 🚀 Convert EUR to USD inside the IBKR platform
- 🚀 Start investing — in stocks, ETFs, or even Bitcoin ETFs

 Use Crypto for Everyday Spending Too

Trustee Plus is a next-generation crypto wallet that also lets you link your cryptocurrency balance to a **Quicko Digital euro card**.

The Quicko Digital and Trustee Plus integration enables automatic conversion of crypto to euros when you pay with the card.

To link your Quicko Digital balance with the Trustee Plus crypto wallet for automatic conversion of cryptocurrency to euros, follow these steps:

1. Go to **Cards** in Trustee Plus → tap **More**
2. Select **Open Quicko Digital**, install the app, and register
3. Get your **Quicko ID**
4. Paste it back into Trustee Plus
5. Choose the crypto you want to auto-convert when you spend
